

Triumph Germany Racing Team

-Network-

Motorsport as a platform for networking, marketing and business connections from which friendships often develop. Many thanks to our partners who support us in the 2025 season.

Some partnerships have existed for more than 25 years. In today's fast-paced world, this is proof of cohesion, loyalty and security.

A warm welcome to the partners who have newly arrived in our network. We would like to welcome you as if the partnership has always existed.

In this information, we would like to introduce all partners with addresses and contacts. Denis Hertrampf (team owner) will be happy to establish the first contact between partners to facilitate communication. It is expressly desired to develop and use the network of all partners.
